EXPERIENCE

Nestlé India Ltd | Security and Compliance Intern 10/2026 – Present

- Conducted an ISMS security audit for the Security Cookbook Verification project, executing cookbook-based audit procedures and control checks across six domains: IAM, network, infrastructure, data protection, digital security, and risk management.
- Reviewed and validated ISMS security cookbooks for accuracy and completeness, ensuring each audit procedure mapped correctly to its intended control.
- Assessed controls against regulatory requirements including ISO 27001, GDPR, and HIPAA, building working knowledge of how an ISMS supports legal data-protection compliance.

Spice Money | Data Science Intern 06/2026 - 08/2026

- Built a Retrieval-Augmented Generation chatbot for rural banking agents' policy queries across 11 verticals, using hybrid dense and BM25 search in Qdrant, a confidence gate with 100% refusal accuracy on adversarial queries, and an LLM-as-judge evaluation harness.
- Built a sales-forecasting pipeline (Theil-Sen robust regression, peer-growth blending) over 6 months of agent transaction data, plus an AEPS-adoption scoring model.
- Developed a scraper across government subsidy portals feeding a payout prediction pipeline for agent-level subsidy eligibility and timing.

Freelance Web Developer 2025

- Delivered a production medical tourism website from client requirements, iterating on client feedback through deployment on Netlify. Live: medicaltour.netlify.app

PROJECTS

AnnData - Transparent Farm-to-Buyer Platform 2026 - Present
Smart India Hackathon 2026 | Stack: Flutter, React, FastAPI, PostgreSQL | Live: https://annadata-onion-pilot.vercel.app

- Architecting a four-layer platform (farmers, farmer producer organizations, collection centres, verified buyers) with a two-stage quality check: AI pre-screening, then physical assaying.
- Building a net-realization engine that ranks buyer offers by net price to the farmer after transport, commission, rejection risk, and payment delay, backed by an append-only audit log.

NyayaSetu - AI-Powered Indian Legal Research Assistant 2026 - Present
Stack: Python, FastAPI, React, Qdrant, Groq API, Ollama | Live: nyayasetu-clean-jade.vercel.app

- Built a full-stack legal research platform with RAG semantic search over 3,384 chunks and live case scraping.
- Added dual-LLM routing (Groq with Ollama fallback) for availability, AES-256 encrypted logging, and JWT auth.

Medsy - AI-Powered Medicine Availability Navigator 2026
Stack: Python, Flask, JavaScript, Leaflet.js, Tesseract OCR | Live: medsy-cdkm.onrender.com

- Built a pharmacy availability predictor with a six-factor Bayesian engine and an OCR pipeline for prescription scans.
- Integrated OpenStreetMap routing and a browser-local medical vault with zero paid APIs.

Shruti AI - Privacy-First Personal AI Companion 2022 - Present
Stack: Python, Ollama, Phi-3 Mini | Live: shruti-clean.onrender.com

- Built a fully offline AI companion with 6+ NLP modules for contextual memory and English, Hindi, Hinglish chat.

ACHIEVEMENTS

- Advanced to Round 3 of Smart India Hackathon 2026.
- Ranked 2nd in two 24-hour hackathons: Delhi University CIC Cluster and IIIT Delhi (2026).
- 1st place, Ideathon at Satakunta University, Finland (2022), with LOR.
