RAGHAV GULATI

AI/ML & BACKEND ENGINEER

New Delhi, India | +91 9667738636 | rg.raghavgulati@gmail.com | github.com/raghav775 | linkedin.com/in/raghav-gulati16

Academic Achievements

Year	Degree / Board	Institute	CGPA / Marks
2024–28	B.Tech, CS with Applied Mathematics (Ongoing)	VIPS, New Delhi	**9.00 CGPA**
2024	Class XII, Non-Medical with CS (CBSE)	Salwan Public School, New Delhi	85%
2022	Class X (CBSE)	Salwan Public School, New Delhi	87.5%

Technical Skills

Languages Python, Java, JavaScript, HTML, CSS, C

AI / Machine Learning Retrieval-Augmented Generation (RAG), Large Language Models (LLMs), Qdrant, fastembed, Vector Databases, Natural Language Processing (NLP), Groq API, Ollama, prompt engineering

Backend & Systems FastAPI, REST APIs, MySQL, JWT Auth, AES-256 Encryption, Git/GitHub (active since 2020)

Frontend & Tools React, Flutter, Android Studio, Google Colab, Jupyter Notebook

Scholastic Achievements

- Ideathon Winner, Satakunta University, Finland: 1st place + Letter of Recommendation; winning concept behind Shruti AI. (2022)
- iCode Hackathon: ranked 98th nationally (top 0.12% of 80,000+) and 178th globally among 50,000+ participants, Python Advanced. (2023)
- Ranked 2nd in two separate 24-hour hackathons: Delhi University CIC Cluster and IIIT Delhi. (2026)
- Shri Ram Global School Animation Competition: Rank 1 in storytelling via animation. (2023)

Experience

Spice Money: Data Science Intern *06/26 – 08/26*

- Built a RAG chatbot answering rural banking agents' policy queries across 11 verticals (AEPS, BBPS, MATM, DMT) from a 183-chunk corpus spanning 12 policy docs, fusing dense semantic search (BAAI/bge-small-en-v1.5) with BM25 via a 60/40 per-query score normalization in Qdrant to beat semantic-only retrieval.
- Designed a three-tier confidence gate (answer / clarify / refuse) reaching 100% refusal accuracy on adversarial queries, with Hinglish query rewriting and an LLM-as-judge harness (Gemini 2.5 Flash) scoring faithfulness and relevancy.
- Engineered a tiered sales-forecasting pipeline over 6 months of agent transaction data using Theil-Sen robust regression and peer-growth blending to project Month-7 targets without absentee months skewing the trend, plus an AEPS-adoption scoring model to flag agents ready to grow usage.
- Developed a scraper across DBT and other government subsidy portals to pull disbursal data, feeding a subsidy history tracker and payout prediction pipeline that forecasts agent-level subsidy eligibility and timing.

Freelance Web Developer *2025*

- Developed and delivered a production medical-tourism website for a client: translated business requirements into a responsive, multi-section site (service listings, info pages, contact flows) with cross-device UX refinements.
- Managed end-to-end deployment on Netlify with iterative revisions based on client feedback.

Projects

NyayaSetu: *AI-Powered Indian Legal Research Assistant* *2026 – Current*

- Full-stack legal AI platform (FastAPI, React) with RAG semantic search over 3,384 chunks from 1,841 legal templates via Qdrant + fastembed, plus live case scraping from Indian Kanoon.
- Dual-LLM routing (Groq to Ollama fallback) for uptime; AES-256 encrypted logging and JWT auth for legal-grade confidentiality.

Live: nyayasetu-clean-jade.vercel.app/

Medsy: *AI-Powered Medicine Availability Navigator* *2026*

- Pharmacy availability predictor ranking nearby options via a six-factor Bayesian probability engine, paired with a multi-format OCR pipeline extracting medicines and dosages from prescription scans.
- Integrates OpenStreetMap/Leaflet routing and a browser-local medical vault: zero paid APIs across the stack.

Live: medsy-cdkm.onrender.com

Shruti AI: *Privacy-First Personal AI Companion* *2022 – Current*

- Fully offline AI companion (Ollama, Phi-3 Mini) with zero cloud dependency, running 6+ NLP modules for contextual memory and multilingual (English/Hindi/Hinglish) conversation.
- Uses Ebbinghaus decay-based memory reinforcement and emotional/sarcasm-aware handling for natural, non-repetitive interaction.

Live: shruti-clean.onrender.com/

Certifications

Cybersecurity
- Foundations of Cybersecurity: Google, IBM, Cisco
- Cybersecurity Compliance, Frameworks & Regulation: IBM
- Operating Systems: Administration & Security: IBM

AI / Python & NLP
- Programming in Python: Meta
- PyEdge: Practical Python & NLP: VIPS

Frontend Development & Website
- Introduction to Frontend Development: Meta
- HTML & CSS in Depth: Meta
- Programming with JavaScript: Meta

Mobile & App Development
- Mobile Application Development (Flutter & Dart): VIPS
- Version Control with Git & GitHub: Meta

Non-Scholastic Achievements

Performing Arts DoE-certified in Drama and Nukkad Natak; guitarist, 10+ years of consistent practice.

Sports Zonal medallist: Shot Put, Discus Throw, Skating; represented school at State-level Badminton.
